The survey should take between 15 and 30 minutes, and you are free to quit at any point in the survey. Once all results are reviewed and analyzed, a copy of the study results will be sent to all respondents.

Instructions:

The purpose of this survey is to assess how today's CHROs allocate their time among competing demands and identify their challenges. Our hope is to provide CHROs with data regarding key leverage points which will increase their effectiveness, particularly regarding interfaces with the Board of Directors.

This year we focus on:

- COVID-19 pandemic effects on CEO succession and talent planning
- Executive compensation and say-on-pay
- The role of Diversity, Equity, and Inclusion Officers

All answers are confidential and are seen only by the researchers administering the survey.

- No data will be released that is not aggregated across all of the respondents.
- Quotes from open-ended questions will never be attributed to individuals.
- Any potentially identifying information will be stripped before use.

Please answer the questions to the best of your ability. However, to save time, please feel free to skip questions where you do not feel you have any particular insights or are not comfortable answering.

On the open ended questions, should you choose to answer, we request that you provide enough detail to ensure that we know what you mean. For example, instead of "identifying talent" you might be more specific and say "identifying the right executive level talent", or "making sure we have enough bench strength among our executive team".

If you have any questions, please contact **Patrick Wright** at patrick.wright@moore.sc.edu.
