Instructions: The purpose of this survey is to assess how today's CHROs are meeting today's organizational demands and challenges. Our hope is to provide CHROs with data regarding key leverage points which will increase their effectiveness. **This year we focus on:** – The most impactful roles of CHROs, the capability of the HR functions they lead, how current external challenges and trends are impacting executive succession, diversity in the C-suite and board, the CHRO's role in ESG, and how companies are navigating responding to socio-political issues.

All answers are confidential and are seen only by the researchers administering the survey. – No data will be released that is not aggregated across all of the respondents. – Quotes from open-ended questions will never be attributed to individuals. – Any potentially identifying information will be stripped before use. **Please answer the questions to the best of your ability. However, to save time, please feel free to skip questions where you do not feel you have any particular insights or are not comfortable answering.** On the open-ended questions, should you choose to answer, we request that you provide enough detail to ensure that we know what you mean. For example, instead of "identifying talent" you might be more specific and say "identifying the right executive level talent", or "making sure we have enough bench strength among our executive

team". If you have any questions, please contact:

Patrick Wright at patrick.wright@moore.sc.edu.
