Instructions:

The purposes of this survey are to assess how today's CHRO's allocate their time among competing demands and constituencies and to identify the challenges they face in their roles. This year we are additionally focusing on the CEO Succession Process. Our hope is to be able to provide CHROs with data regarding the key leverage points in which they can help to increase the effectiveness of this process, particularly with regard to interfaces with the Board of Directors. Please answer the following questions to the best of your ability. When you are answering questions about percentages, you will be able to see them calculated at the bottom to ensure that you do not exceed 100%. On the open ended questions, we request you provide enough detail to ensure that we know what you mean, for example, instead of "talent" you might be more specific and say "identifying the right executive level talent," or "making sure we have enough bench strength among our executive team". However, answering some of these questions may be time consuming, so in the interest of your own time, feel free to skip questions where you do not feel you have any particular insights to share. In addition, feel free to skip any questions that you are not comfortable answering.

All your answers are confidential, and will be seen only by the researchers and the Survey Research Institute who is administering the survey. In addition, no data will be released that is not aggregated across all of the respondents. Quotes from open-ended questions will never be attributed to individuals and any potentially identifying information will be stripped before quoting. The survey should take between 15 and 30 minutes, and you are free to quit at any point in the survey. A copy of the study results will be sent to all respondents. If you have any questions, please contact Patrick Wright at patrick.wright@moore.sc.edu.
